We have Microsoft Teams sites setup where you can ask questions related to these proposals prior to the meeting.

Microsoft Teams

We are using a Microsoft team called **Krannert Faculty Meetings** to facilitate this online meeting. Microsoft Teams should be on every Krannert machine, but it may not be on your personal devices at home.

For more information, use the [Microsoft Teams Resources](#) from the KCC website, and you can [download a copy](#) from Microsoft.

We have setup multiple channels, one for each topic being proposed. This is what it looks like in the menu on the left (for next week's meeting)

NOTE: These topics will change for each faculty meeting based on the agenda

Clicking on one of the channels will take you to its content

- Use the **Posts** tab for questions and discussions on the topic related to that channel.
- Use the **Files** tab to view the files being used for the topic related to that channel
- Use the **Video Presentation** link to watch the pre-recorded video on the topic related to that channel
